

The District participates in the federal Title I program. The general purpose of the Title I program is to ensure that all students have a fair, equal, and significant opportunity to obtain a high-quality education and reach, at a minimum, proficiency on challenging state academic standards and state academic assessments.

The District's Title I program is a school-based, targeted-assistance program. The District's Title I program serves eligible students in the Mineral Point Elementary School. The specific focus of the Title I program is to enable all students to meet high academic standards, to promote active involvement by parents in their child's education, to increase the expertise of staff through staff development opportunities, and to improving reading proficiency.

The designated Title I Coordinator and the District's Superintendent shall have responsibility for ensuring that the District abides by all legal requirements for participation in the program, including but not limited providing required notices to parents, monitoring comparability of resources and services, monitoring the allocation and expenditure of program funding, and making all required applications and reports.

Title I parent involvement policy guidelines shall be distributed to parents of participating students and will be reviewed annually to reflect state Title I mandates and changes. These policy guidelines abide by the MPSD Non-discrimination Policy (cross-reference).
