

CLASS SIZE

Policy 343.2

Page 1 of 1

Every effort will be made by the administration to assign reasonable class loads and assignments in the interest of effective teaching. Under most circumstances, the District strives for (but is not bound by) class sizes with the following approximations:

PK-3	Core academic class sizes of approximately 18 students
Grades 4-6	Core academic class sizes of approximately 20 students
Grades 7-12	Core academic class sizes of approximately 25 students

In cases where enrollment and/or space limitations require class sizes in excess of these numbers, the administration and teachers will carefully examine the learning atmosphere to determine if additional assistance can be provided. Classes initially scheduled with less than 12 students require District Administrator approval prior to proceeding.
