

STUDENT ALCOHOL/DRUG USE

The Board of Education recognized the increased use of alcohol and drugs by students throughout the country. In order to combat this problem, the district administrator is directed to establish and maintain an effective educational program so that students are made aware of the physical and psychological dangers incurred through the use of alcohol, controlled substances, controlled substance analogs or drug paraphernalia.

All principals shall cooperate fully with law enforcement agencies and are to report to them any and all information that would be considered beneficial in their efforts to stem illegal alcohol and other drug use to the extent permitted by law.

The district administrator shall also take steps to prevent any person from coming on the campus of any school in the district in possession of or under the influence of alcohol, marijuana, hallucinogenic drugs or narcotics of any kind – or attempting to sell or use the said drugs of any kind on school property.

The district administrator shall cooperate with the local, county, state and federal narcotic officers in the detection, prevention and prosecution of any and all possible violations.

Possession, use or under the influence of unlawful chemicals, including alcohol, controlled substances, controlled substance analogs, and drug paraphernalia, on school grounds or at school sponsored activities is a violation of school rules. The presence of such chemicals or drug paraphernalia in school lockers constitutes possession. Such possession, detection or use will be treated in the following manner: For the infraction of the school alcohol and drug policy, the violation will result in a referral to the building Alcohol and Other Drug Committee for its recommendation. The guidelines for these recommendations will be developed by the school administration and included in school manuals, folders, and athletic eligibility training rules.
